---

I'm thinking that the reply that we provided to the library for the other messages might need a tiny bit of tweaking because those messages focused on timing of the project, but it's probably pretty close. Key, as always, is to just be factual about our role and not state a position one way or the other about the merits or lack thereof of the project. Please review our previous reply message and advise Kerry how to proceed.

**Subject:** Fw: Rosemont Copper - DO NOT Release the ROD

Here's a letter AGAINST Rosemont Copper Mine. Do you want to handle this any differently than the others?

EPA Region 9

Dear EPA Region 9:

I urge you to PREVENT Rosemont Copper from the completion of their goal.

Their misrepresentations and exaggerations are very evident to the people of Tucson.

Please use whatever authority you have to eliminate the possibility of Rosemont Copper putting a mine in Tucson.

Thank you for listening.

Sincerely,

Walter Benning
